

WHEN TEACHERS THRIVE

STUDENTS

A C H I E V E

“

TAP illuminates the learning and understanding that our teachers and students could and would not see without it.

Dr. Mike Frazier, Director of Schools

”

EXCELLENCE

Great teaching is the goal at Etowah City School, and TAP provides the structure to support ongoing improvement for every teacher. The results speak for themselves. TAP schools nationwide consistently outperform similar schools in student academic growth.

After **THREE CONSECUTIVE YEARS** of an effective teacher, the achievement gap between low- and high-income students nearly vanishes.

IMPACT

At Etowah City School, Career, Mentor and Master Teachers all work together to make meaningful improvements based on specific teacher and student needs. Weekly cluster group meetings enable teachers to track student progress, adjust instruction, and redefine goals as a team.

“Teachers are working together for the same goal. That just didn’t happen before TAP.”
Sarah Carroll,
Mentor Teacher

SUCCESS

Working to build each teacher’s skills and improve as a team, we are helping students to outperform expectations and prepare for next generation careers.

100%
of Etowah
City School teachers
are retained
in the school
each year.

PROGRESS

We build expertise within our staff, enabling effective teachers to take on leadership roles and support their colleagues to continually improve instruction. Career teachers can now grow into positions of Mentor and Master Teachers. In this way, Etowah City School has made recruitment, retention and development of high quality educators its top priority.

“TAP provides a framework for teachers and professionals to continually improve.”
Candace Webb,
Career Teacher
